**FOLLOW –UP APPOINTMENTS FOR ADHD MEDICATION**

Dear Physician,

This child is a patient at Georgetown Pediatrics and is in need of a follow-up visit for his/her ADHD medication. Below are the items that are necessary to be addressed in a follow-up appointment so that this child can continue on his/her ADHD medication. We do these visits every 3 – 4 months and address all of these issues at each visit.

Since this student is not able to come to our office for his/her ADHD follow-up, please address the following:

- Weight
- Blood Pressure
- Nutrition
- How ADHD medication is working
- Weight gain/loss
- Well being
- Any issues due to the medication

Please fax the notes for this visit to us at the office listed below.

Sincerely,

Physicians at Georgetown Pediatrics
